# Human Geography

A Changing  
World

### Mapping Earth

Ways of Looking At the World	Discover the many different ways we can survey our planet.
Ordnance Survey Maps	Learn how modern technology has transformed the way these world-famous maps are created.
The Longitude Problem	Discover how one man revolutionised maritime navigation with a watch.
Time Zones	What time is it? Well, that depends where on Earth you are!
Mapping the Sea	How do we map the sea? And why is it so important that we know what lies beneath the ocean's surface?

### Where We Live

Population: Physical Factors	How does the physical environment determine where settlements are built?
Populating the World: Migration	Learn about the human factors which determine migration patterns.
Urban Settlements	What are the common characteristics of urban settlements across the world?
Brazil: Ethnic Diversity	How has Brazil become one of the most racially diverse countries in the world?
Extreme Living: The Frozen North	How do people survive in extremely cold environments?
Extreme Living: The Sahara	Find out how NASA technology revealed a life-changing secret beneath the Sahara's sand dunes.
Extreme Living: Nomads	Discover what life is like for one of the few remaining nomadic tribes on the planet.
Settlements and Apartheid	Discover how racial segregation policies changed the face of Johannesburg.
Tuvalu: The Threat of Rising Seas	Discover why the tiny island nation of Tuvalu might soon disappear forever.

### Town vs Country

Settlement Resources	Which infrastructures are vital to creating sustainable settlements?
Urban Land Use Models	Learn about models which explain the layout of urban settlements.
Rural Settlements	Discover how rural settlements are changing in the face of Urbanisation.
Rural-Urban Fringe	Where the city meets the country is called the Rural-urban fringe. What are the distinctive characteristics of this area?
Rural Deprivation	Why are many rural areas around the world in decline?
Protecting St Paul's	Discover the urban planning laws that maintain London's historic skyline whilst allowing modern developments.
Brownfield Sites	What are Brownfield sites, and do they provide an answer to housing shortages?

**Travel and Migration**

Census: Counting People	Why do we need to know how many people live in a country?
Butler's Tourism Model	The life of a tourist resort passes through six distinct stages which are shown in Butler's Tourism Model.
China's Mass Migration	Find out why rural farmers in China are heading for the bright lights of Shanghai.
Illegal Immigration: Crossing the Sahara	The dangers faced by illegal immigrants seeking a way into Europe.
Hawaii: Impacts of Tourism	The positive and negative impacts of global tourism on the people of Hawaii.
Namibia: Ecotourism	Can global tourism and local interests coexist successfully?
Mass Tourism: Case Study	Can the beautiful environment of Thailand withstand the pressure of mass tourism?

## Globalisation

What Is Globalisation?	How has technology changed the world we live in, and the rate of development?
A Global Village	Explore the impact of improving communications networks on towns and cities around the world.
Transport Networks	Why are transport networks so vital in global trade?
Brazil: Life on a Plantation	What is life like on a sugar cane plantation, and how is increased mechanisation affecting Brazil's sugar cane cutters?
Traffic Congestion	Discover the causes and impacts of traffic congestion.
Brazil: Agricultural Revolution	Find out about the new agricultural methods being pioneered in Brazil to produce more, using less.

## Changing Lives

Overpopulation	How many people are too many? Discover the population capacity of our planet.
Could Climate Change Your Life?	What effects could climate change have on populations around the world?
Feeding the Planet	How will we cope with a global food shortage?
Brazil: Life in a Favela	What is life like in one of Brazil's biggest slums?
India: Curbing Population Growth	Discover the voluntary and compulsory measures used to tackle India's growing population.
Japan: Encouraging Population Growth	What are the problems of an aging population? And what can be done to tackle it?
Manila: Megacity	What is life like in one of the most densely populated cities in the world?

## Unequal World

Global Inequalities	Discover why where you live can affect every aspect of your life.
LEDCs	What determines whether a country is Less Economically Developed?
MEDCs	What are the defining characteristics of a More Economically Developed Country?
LEDCs: Barriers to Development	What are the factors preventing countries from becoming more economically developed?
International Trade: An Unequal Relationship?	Discover the balance of power between countries when they trade.
Demographic Transition Model	How do population dynamics change as countries become more developed?
Brazil: The Wealth Divide	Discover the different lives of the rich and poor in Brazil.
Fair Trade	How does Fair Trade improve the lives of farmers around the world?
Sapphires: A Fair Trade?	Discover the dangers of Madagascan sapphire mines, and who stands to profit.
Different Types of Aid	Aid is an important factor in helping countries recover from disasters. But what is aid?
The Issues With Aid	Aid comes in many different forms. What are the advantages and disadvantages of each type?

**Humans and the Carbon Cycle**

The Carbon Family	Get a domestic perspective on pollution. How big is the average family's carbon footprint?
Carbon Capture: Phytoplankton	Discover how mysterious micro-organisms in the oceans could save our planet.
Carbon Trading	Will government caps help industrial polluters to reduce their carbon footprint?
Carbon Capture: Artificial Trees	Investigate the artificial trees of the future.
The Future Carbon Family	How the average family can help save our planet – a domestic perspective on 'greenliving'.
